

## OTHER BASIC DRINKS

**Latte** - The most popular American espresso drink. Flavoring, espresso, lots of steamed milk, topped with a little bit of foam and whipped cream (if requested).

**Cappuccino** - The European version of a latte - it has less milk and more foam and tastes "stronger". Flavoring, espresso, a little steamed milk, and lots of foam.

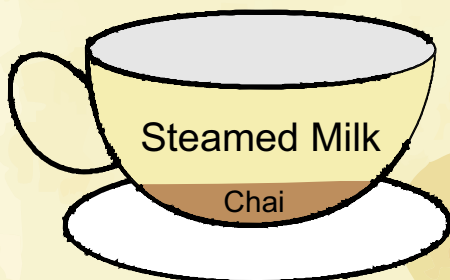

**Americano** - Single or multiple shots of espresso added to hot water. Mimics strong brewed coffee.

**Red Eye** - Single or multiple shots of espresso added to brewed coffee - very strong!

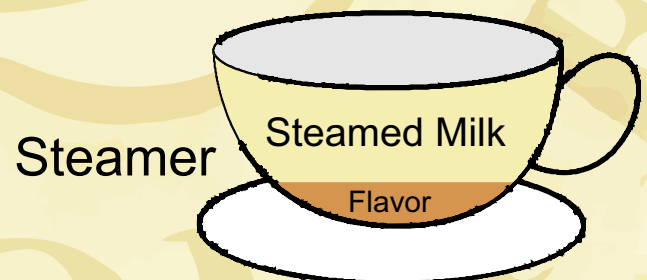

**Macchiato** - Espresso "marked or stained" by steamed milk. Starbucks has bastardized this Italian drink and turned it into a vanilla/caramel latte.

**Chai Latte** - Chai concentrate/powder steamed with milk.

**Steamer** - Flavoring and steamed milk.
